Address of the site or building:	Land at, Cuckstool Road, Denby Dale, Huddersfield, HD8 8RB
Postcode:	

User comments

Type of comment: A supporting comment	
Do you wish your comments to be published on the website anonymously?	Yes
<p>i am a local farmer ,i have observed applications like this one for years some have been passed others not !!! but yet if it were 50 acres of greenbelt to build 400+ houses on which would have a massive impact on the surrounding infrastructure eco system and land that we need in this country to grow food on and produce oxygen it would be passed ,there are such developments happening just a few miles away at the moment ,why you may ask well i am not scared to say why BROWN ENVELOPES and then it leads to local authority staff being dismissed .</p> <p>here we have a small development which will have none if any impact on eco system local infrastructure and CLIMATE CHANGE unlike larger developments .</p> <p>there is road access from 3 entrances and even with the developers giving back around 40% of the land and recreating more of an eco system and planting oxygen rich eliteing greenery there will still be enough space on each plot with ample off road parking thus not causing any access problems for existing residents.</p> <p>i have read all the negative comments and its obvious that anyone with any intelligence can see they are all saying the same thing almost as if they have formed their own planning committee who can only see what's in front of them and not the bigger picture i mentioned earlier CLIMATE CHANGE they cant even see that the hedges fencing has been put up around the site for their safety as at present it is mainly scrub BROWN LAND for those of us that know with remains of a building which could cause injury to anyone .</p> <p>i do believe that all the objections are very biased and should only be counted as 1 because they have no weight behind them and this and other unusable land should be taken more into consideration instead of the countryside which surrounds the whole of this area</p> <p>REGARDS</p>
