<p>I can remember this being a good site for nature with mature trees and hedgerows. It was mostly uprooted in 2020 with stone walls dismantled and made to look a mess by the landowner presumably to help his efforts to get planning permission. Residents near this site will not be happy to living so close to an eyesore. This application is for outline planning permission for two houses. Once planning permission is given this can be increased so a word of caution to those in support of this application as you may be being misled. This application should not succeed and the land should be restored.</p>
