| <p>I wholeheartedly support the development at Burn Road . The size of house is desperately needed for young families to be able to move into this area. I have been hoping to move into this area for sometime yet I've been unable to find a suitable property. I am pleased to know there will be affordable housing.</p> <p>Since the Harron development a lot of public open space has become available and this is very nice to walk in and provides a lot of habitat for wildlife. It is good to know that this cannot be developed and therefore being impacted by further development. It seems to me that the quality of the land for this proposed development is very poor quality And hardly suitable for agriculture.</p> <p>There is plenty of parking on Woodlands Court as as all the detached houses have several parking spaces each and there are never parked cars on the road, The access into Burn road is easier since the 30 mph limit was introduced. Also, Burn Road is very much quieter since the one-way was built.</p> <p>Access into Yewtree Road has been improved as has access from new Hay Road and Grismscar Road. All in all this development will be a much needed asset to the community.</p> | |
