Subject: RE: Application 2024/62/90256/E

Edward

I strongly appose this application, dealing with one in Birstall, of a similar nature, I know how this will end. The noise, usually from music, the spray, the queues etc are all a negative as far as I`m concerned. I would like to see the questions Councillor Smaje as put in the previous email and more detail of what this structure will look like, noting that we have just had a structure removed from the other end of this garage being not in keeping with the area.
