| <p>The application seems to be purposely misleading in terms the increase in size of the hand car wash. Will this turn into another messy eyesore that is usually the case with hand car washes.</p> <p>The owners of the Golden Fleece opposite have worked hard to create a local pub that is envied by local villages and has visitors from outside the village. The outdoor seating will be ruined by a hand car wash.</p> <p>A hand car wash is not in keeping with the local area and will further turn a village that is losing some of its identity into just another car wash on just another Main Street. We already have multiple hand car wash businesses a short distance from the garage and what is really wrong with a self use jet wash.</p> <p>The single lane road will potentially bring queues of traffic and the garage has traffic islands on each side that will make it impossible to pass without driving on the opposite side of the road. This is just a common sense reason why it isn't logical.</p> |                              |
