<p>I strongly object to this kind of operation, it will create excessive noise, traffic including a build up of traffic going up and down Whitehall Road. This type of operation is synonymous with [redacted] and Kirklees council should not be party to it. These are not suitable working conditions</p> <p>The operation is unsightly, I feel being opposite current thriving businesses eg Golden Fleece and Readmans will have a detrimental effect on their footfall turning off clientele visiting. Birkenshaw is a lovely area but has had some big developments ongoing which Kirklees have approved, how does this kind of operation help bring new house buyers into the area? I strongly urge the council to think about it's council tax payers, the environment Impact of pollution (we are already a highly polluted area) with Bradford road, the M62 and the fire station all in close proximity. This small plot of land already has a petrol station and garage situation on it. Why can't the self serve car wash be left as is? I therefore object to this planning application on environmental, ethical, noise, traffic congestion and visual grounds. Thank you</p>
