<p>I would like to object to building a hand car wash .the main road is too busy to accommodate queues for a car wash ,the plan is to near a large school therefore dangerous ,it is a residential area and would negatively affect the area ,there is already a building site just down the road which is going to make the roads too busy and Finally it is far to near a busy roundabout where cars already queue morning and afternoon at peak times and also when their are issues with the M62. white hall road east is a very busy road and is already dangerous for the school children to cross safely without having to have to try to cross whith vehicles trying to get into a care wash, the current jet wash is time limited and works perfectly fine. an staffed car wash is to dangerous for this road as the traffic flow is already at the most busy and dangerous at the present without any further risk od a car wash increasing this.</p>
