<p>The application itself is unclear. Reference is made to the effect that no building work is necessary yet it appears there will be a canopy. Is that not building work? In addition the site of the car wash on the property does not, for me appear to fit. They are replacing one jet spray area with 4 bays - 2 for washing and 2 for drying. How does that fit?</p> <p>Apart from the above I am also concerned as to the impact of the surrounding area. This includes the additional traffic congestion given it is near the main village roundabout with the expected queuing on what is already a busy main road through the village. It is also directly opposite a local pub/restaurant with outdoor seating. Not really convivial.</p> <p>In summary, I consider the application to be very unclear and in my opinion is being taken forward with little thought as to the local impacts and as a result would ask that this application is refused. The total number of objections clearly demonstrates the strength of local opinions.</p>
