<p>We dont need a hand car wash in birkenshaw there are 15 within a 3 mile radius. Ive looked at where the car wash is now and the drainage isnt the best its all sludged up with mud which is gonna make it worse, people arent gonna turn there engines off i for one dont when i use a hamd car wash. We already get the spray in our gardens which means we wont be able to sit out in the summer. I have severe copd and i live right at the back of the car wash the pollution and cars coming on Whitehall road is more than enough without anymore. There will be shouting and swearing from the said workers and where are they gonna be using toilets as there arent any situated there. Also quite a few years ago when the drains were blocked my garden flooded killing quite a few trees and i dont want this happening again. I totally object to this decision.</p>
