<p>There is no need for a hand operated car wash to be present in Birkenshaw. There are MANY within a a few mile radius. The noise and disturbance to the adjacent properties on Whitehall Road has not been considered, with spray, chemicals and such which will naturally be carried in the wind into the gardens where children play and washing is dried.</p> <p>In addition the safety of the public will be put into risk. Having lived in the village for years, I had no idea that the garage has a one way entry system. There are no highways signs indicating this and as such I believe it is a hazard for the public. It will also cause disturbance to an already existing business King Motors - a mechanics and MOT centre. Much more useful than a car wash!!!</p> <p>The road is also heaving at peak times. Particularly at school drop off and pick up time and peak travel time - adding additional travelling vehicles who wish the have their car washed is ludicrous and a decision which will only put children and the general public at risk. Not to mention adding more traffic to an already VERY busy road. The roundabout isn't fit for purpose as it is and this premises is just up the road.</p> <p>A ridiculous application which absolutely should be blocked. If the new owner wants to make more income - this is not the answer!</p> <p>And let's be honest, the two full time roles won't be individuals from the village will they? What salary are they paying? Is it all above board?</p>
