<p>Having seen the choas caused by the car wash at Brighouse next to the Shell Garage. I feel this would end up causing the same issues as there. People queue to get into the carwash as it is extremely popular, you cannot argue they do a great job but you could argue that the back up of traffic onto the main road and by the pedestrian crossing points are the biggest downfalls. The car wash entrance was situated across the forecourt of the petrol station and they were told to move it as it caused issues for people buying petrol and using the station. This in turn causes further issues as the traffic now backsup past the petrol station and on the main road instead. This one at birkenshaw will be exactly the same!</p>
