<p>This application raises a number of concerns.</p> <ol style="list-style-type: none">1). Container structure for staff. Not in keeping with the area. No mention of sanitation for staff.2). Plans mention already in place a one way system. There is no one way system in operation. Presumably if a one way system is to be put in operation would require signage. No application for any signage.3). The very nature of a hand car wash attracts queuing traffic I note the application details three vehicles queuing adjacent to 'live' petrol pumps not appropriate, especially if these vehicles are idling. Also causing unnecessary congestion on the forecourt with vehicles using the pumps. <p>A very vague application which leaves more questions than answers. Overall an inappropriate application which requires rejection.</p>
