<p>I would like to strongly object to having a hand operated car wash on this site. This will be a huge eye sore to the village, and have a huge negative impact on traffic as these hand car washes constantly cause queues onto the site. This is an already busy main road so causing further disruption will add a huge amount of pollution and cause longer journeys for all local residents. The chemicals mixed into water and entering into the drains will also cause further pollution which I strongly believe should be avoided at all costs. Having a car wash on this site will also hugely negatively impact neighbouring properties, many of which have children that play in the garden and the waste water will wash directly onto it. This is surely a health hazard. To summarise, this will be of absolutely no benefit to local residents and is not wanted in the village, especially as there are plenty of these within 3 miles.</p>
