<p>This application will have a severe impact on the traffic situation on the a58 its bad enough as it is with cars already queueing also there is a school nearby which will be dangerous for children crossing the road not to mention even more pollution in the air. i have severe copd which means i wont be able to sit in my garden due to the fumes from the cars and the spray from the car wash as already with the car was they have now there is spray coming into my garden. My grandchildren dont want to hear the swearing and carrying on while they are in my garden.</p> <p>There has been previous drainage problems in the past and this will only make it worse.</p> <p>I totally object to these plans.</p>
