<p>I live very near to the site and my back garden is very near the garage premises and i don't want the constant noise 7 days a week all day from pressure washers and people talking and swearing all day too.The drainage will be a problem from all the water being used. I have not got a problem with the car wash already there as it is not on all day. We will also have traffic problems from cars coming in and out from the petrol station and the workshops behind as well as the pub and shop across the road with the car wash traffic too.</p> <p>My wife is of ill health and wants to sit quietly in the garden when she can which she wouldn't be able to do with all the noise pollution.</p> <p>Please stop this application. there are many car washes nearby. Stop it now!!</p>
