| <p>Objection for application 2024/62/90256/E</p> <p>We object to a change from coin operated use to attended car wash because:</p> <p>1, The pollution levels are already trying to be addressed at this busy area. We attended a meeting last year about pollution levels, with the local councillor and a person representing Kirklees. Waiting traffic with cars waiting to be washed, and engines running will go against this current motion of tackling pollution levels in Birkenshaw.</p> <p>2, There are businesses that look extremely attractive across the road from the garage which are thriving and popular. Putting an attended car wash opposite them, will not contribute to the making this area look appealing, and would have a negative effect on their appeal.</p> <p>3, Surrounding 'off shoot' residential roads, will suffer with increased traffic, creating more 'rat runs', due to people taking steps to avoid accumulating cars waiting to be washed. This area serves many families, escorting their children to the various schools in this area- would the council be prepared to spend more money on traffic calming measures on the 'rat run' roads, as a result of traffic problems this application will cause?</p> <p>4, Birkenshaw does not need another noise disturbance to the area, and this would be a noise disturbance. Birkenshaw needs consideration for its future, and greenness, and less pollution.</p> | |
