

# KIRKLEES METROPOLITAN COUNCIL INVESTMENT & REGENERATION SERVICE

## DEVELOPMENT MANAGEMENT

Planning (Listed Buildings and Conservation Areas) Act 1990 (as amended) – SECTION 16

### DELEGATED DECISION TO DETERMINE APPLICATIONS FOR LISTED BUILDING CONSENT

Reference No:	<b>2024/65/90270/W</b>
Site Address:	Queensgate Market, Princess Alexandra Walk, HD1 2UJ
Description:	Listed Building Consent for demolition, alteration, refurbishment and extension to create library, food hall and public realm (part within a Conservation Area)
Recommending Officer:	David Wordsworth

#### DECISION – Grant Consent

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

*Victor Grayson*

**AUTHORISED OFFICER**

**Date: 24-Jun-2024**

## **Application: 2024/90270**

**Site:** Queensgate Market Hall, Huddersfield HD1 2UJ

**Proposal:** Listed Building Consent for demolition, alteration, refurbishment and extension to create library, food hall and public realm (part within a Conservation Area).

The proposal relates to changes to the existing market within the wider Cultural Heart development for which a parallel Section 73 application (2024/902257) seeks to vary condition 2 of the existing permission, and which is also considered acceptable.

### **Site Description**

The site is located close to the boundary of Huddersfield Town Centre Conservation Area which is to the east and west of the site. There are a number of listed buildings in close proximity to the site including Huddersfield Town Hall (Grade II), St Pauls Hall (Grade II), and the Lawrence Batley Theatre (Grade II\*). This Listed Building Consent application relates only to the proposed changes to the Queensgate Market.

### **Relevant Planning History**

The following applications relate to this site:

2021/92044 – Listed Building Consent for the replacement of the existing single glazed windows. Withdrawn 02/11/2021.

Numerous Listed Building Consent applications for shopfront alterations, internal alterations and associated works.

2024/902257 – Variation condition 2 (plans and specifications) on previous permission 2022/93248 for demolition of existing Piazza shopping centre; part removal of Queensgate Market; demolition/retention of service tunnels; redevelopment of the site to form new public realm space (including public park and gardens, play areas, public square/outdoor event space); refurbishment and change of use of existing Queensgate Market Hall into food hall (Use Class E (b) sale of food and drink for consumption, mostly, on the premises); refurbishment and extension of existing library and art gallery building to form museum (Use Class F.1); change of use of part existing market hall building and extension to form public library (Use Class F.1); erection of indoor event venue incorporating multi-storey car park below (Sui-Generis); erection of public gallery building (Class F.1); associated infrastructure on land and buildings at Queensgate Market, Huddersfield Library and Art Gallery, and Piazza (and The Shambles) Shopping Centre (part Listed Building/part within a Conservation Area).

### **Consultation**

### Ward Member comments

None received.

### **Statutory**

#### Historic England

Advise to seek the views of the council's specialist conservation and archaeological advisers. It is not necessary to consult H.E. on this application again unless there are material changes to the proposals.

#### KC Conservation and Design

No objection. Conditions recommended.

### **Publicity**

The planning application was publicised by site notices and a press notice and the nearest properties were notified by letter. Five representations were received (one of support and four objections) – the main points raised are summarised below.

#### Objection

- Please retain the trees on Queen Street. Objection to the felling of the Queens Street trees.
- Trees are valuable for the following: enhancing the look of the area capturing carbon, cleaning the air and reducing the temperature of the street.
- These seven trees should be in pride of place in this development but seem destined to be removed. Two lime trees, two beach trees, a London plane 7m wide, a Norwegian maple and an extremely large unidentified tree.
- Support our town wildlife and help with the climate emergency. They are the air we breath.
- Felling these trees would be a travesty. Keeping them would put the public's faith back in the council after such a terrible error of felling the Queensgate market trees.
- Essential to reduce pollution and heat in urban environments and should not be removed unless absolutely necessary.

#### Support

- These plans look fantastic, let's get on with it now.
- It seems demolition of the existing Boots and WH Smith/BHS blocks is to be delayed.
- For me, and lots of people, this will be welcome.
- The existing Shambles walkway will be an excellent entrance into the new park.

- The promised new multi storey car park cannot be put on ice as full houses at the Town Hall and LBT already place enormous pressure on parking in and around these venues.
- When people come out of the theatre at 10:30pm they do not want to be trailing around looking for their car, and public transport to our outlying villages finishes well before 10:30 pm.
- These welcome plans which include an improved night-time offering for our town centre but further impact on parking around our Town Hall.
- Cannot put our multi storey car park into the same phase as demolition of Boots and WHSmith.

## **Planning Policy**

### Kirklees Local Plan (KLP)

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27/02/2019).

Relevant policy:

**LP35** – Historic environment

### National Policies and Guidance

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF), and the Planning Practice Guidance Suite (PPGS), first launched 06/03/2014, together with Circulars, Ministerial Statements and associated technical guidance. The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

Relevant policy:

**Chapter 16** – Conserving and enhancing the historic environment

Other relevant national guidance and documents:

- MHCLG: National Design Guide (2021)

## **Assessment**

The main issues of this case are the impacts upon the Grade II listed building.

When determining planning applications that impact on designated heritage assets local planning authorities have a statutory duty under sections 16(2), 66(1) and 72(2) of the Planning (Listed Buildings and Conservation Areas) Act 1990 to have special regard to the desirability of preserving listed buildings or

their setting or any features of special architectural or historic interest which they possess.

Paragraph 203 of the NPPF states: "In determining applications, local planning authorities should take account of: a) the desirability of sustaining and enhancing the significance of heritage assets and putting them to viable uses consistent with their conservation; b) the positive contribution that conservation of heritage assets can make to sustainable communities including their economic vitality; and c) the desirability of new development making a positive contribution to local character and distinctiveness.

Paragraph 205 of the NPPF states that when considering the impact of a proposed development on the significance of a designated heritage asset, great weight should be given to the asset's conservation (and the more important the asset, the greater the weight should be). This is irrespective of whether any potential harm amounts to substantial harm, total loss or less than substantial harm to its significance.

Part 1 of Policy LP35 of the Kirklees Local Plan states that development proposals affecting a designated heritage asset should preserve or enhance the significance of the asset.

This listed building consent application relates to the existing market building and the creation of the Library and Food Hall and does not affect the remainder of the Cultural Heart scheme. The only consideration is the impacts upon the heritage asset (the Grade II listed building) resulting from the proposals to amend the details approved in Listed Building Consent ref: 2022/93235. The amended elements are assessed below.

*Internal partition between the food hall and library:*

The amended proposal is for the introduction of a solid fire separation wall with fire rated windows instead of fire rated curtain wall glazing between the library and food hall as approved. The existing first floor partition is fully glazed while the ground floor is open plan in this area. The Conservation and Design Team considers this revision to lead to less than substantial harm to the significance of the listed building by the loss of panoramic views of the interior of the market hall from the first-floor library. The applicant has submitted justification to support this amendment, these being limited suppliers of glazed curtain walling and a lack of fire test certification for these products. Officers are of the view that it is important that the impressive views of the parabolic mushrooms across the market hall are maintained. The new partition limits the view from the first floor, but a partial view would be maintained to some extent by installing a pair of vertical windows within the new wall to the side of each column, with their proportions designed to enhance the vertical emphasis of the columns. Officers are disappointed that a solid partition is necessary but understand the need to comply with fire regulations and ensure a safe environment.

*First floor library partitions:*

Partitions were previously approved within the first-floor library and these have now been omitted. This would enhance the space and allow an appreciation of the parabolic mushrooms and impressive architecture.

*West elevation:*

A fully glazed west elevation of the food hall was approved and has been amended to a mix of glazing and solid cladding. As this is a new elevation following the approved demolition of the existing west elevation, no historic fabric would be affected by the change. The proposed metal panel cladding replicates the format of the approved glazing modules and would improve the thermal performance of this elevation with no impact on significance, subject to detailing and materials being submitted for approval.

*Omission of Level 2 of the library extension:*

This extension is no longer required and would be an enhancement as it would reduce the external alterations to the original building, with views of the Grade II listed St Paul's Hall and Huddersfield Town Hall maintained from the Piazza.

Amendments are proposed to the material choices in this area, with most of the original proposed materials being retained and with additional, complementary materials added to support the revised elevation design. These proposals are acceptable subject to details being submitted for approval.

*Retention of more existing lower ground existing fabric:*

This is acceptable internally as the area has low significance. Externally, the omission of previously-proposed windows and entrances on the east elevation facing Queensgate would be an enhancement as this would reduce the interventions in the external wall.

*Increase in the spacing of clerestory glazing:*

The replacement of all clerestory glazing has been approved. The frame sections of the proposed windows are thicker than the existing to take the weight of double-glazing. To ensure that the curtain walling has a lightweight appearance with a good proportion of glass to frame and to maintain the vertical proportions, these windows are slightly wider. New windows to the lower section on the west elevation are twice the width of those above, with the frames aligning with alternate mullions above. This is an acceptable design solution which maintains the vertical emphasis of the glazing and follows the configuration of clerestory glazing throughout the building, while also ensuring the structural integrity of the windows.

*Insertion of additional rooflights within the roof terrace:*

As this is a hidden flat roof, there would be no impact on significance and an increase in natural light which would reduce the need for artificial lighting.

### *Precast RC Plank / Slab Investigation Report:*

The applicants submitted a document titled Existing Precast RC Plank / Slab Investigation Report (Curtins ref: 081801-CUR-00-XX-PR-S-00006) for the concrete plank replacements. KC Conservation and Design commented as follows:

*The concrete planks are of low significance, and it has always been the intention to insulate beneath them and lay a new floor finish above them, so they will be hidden from view. As the structural report states, many of the planks have reached the end of their anticipated lifespan and therefore KC Conservation and Design has no concerns about the removal of damaged and deteriorated planks, along with the proposed support brackets, to enable a safe and sustainable use for Queensgate Market without the need for later interventions.*

### *Conclusion:*

Officers support the amended proposals. Some elements, including the removal of the second-floor extension and openings on the Queensgate elevation, represent an enhancement on the approved application. Other elements, such as the solid wall between the library and food hall would harm significance but are fully justified, and others have a neutral impact. The impact on the setting of nearby listed buildings would be either a minor enhancement or neutral.

### Representations

The following are responses to the matters raised within the public representations received, which have not been previously addressed within this assessment.

Five representations received were received in relation to trees.

*Officer's Comment:* Under this listed building consent application, there are no external changes to the Queensgate Market that affect the existing and proposed trees / landscaping on site. KC Trees were consulted on the Section 73 application (ref: 2024/90270) which is the relevant application for amendments to the wider Cultural Heart site and commented as follows:

*No comments as there doesn't seem to be any external changes, providing the previous tree conditions are upheld.*

Other comments made in representations are not materially relevant to this listed building consent application.

### Conclusion

In conclusion, the proposal would secure a long-term viable use for this substantial heritage asset (which is Grade II listed) and with the inclusion of

appropriate conditions, would sustain the significance of the designated heritage asset, complying with Local Plan policy LP35, chapters 12 and 16 of the NPPF, and with the duties set out in the Listed Buildings and Conservation Areas Act.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice. This application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

**Recommendation:** Approve subject to conditions

**Application Number:** 2024/90270  
**Decision Authorisation:** Delegated Powers  
**Officer Recommendation:** Approve

### **Conditions and reasons**

1. The development hereby permitted shall be begun within three years of the date of this permission.

**Reason:** Pursuant to the requirements of Section 18(1) of the Planning (Listed Buildings and Conservation Areas) Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.

#### Demolition

2. No demolition or the removal of fabric, including that adjacent to, abutting or connected to the listed building, shall take place until a demolition method statement has been submitted to and approved in writing by the Local Planning Authority. Details shall include the method of protection of the retained building fabric including propping, weatherproofing, protection of adjacent and adjoining historic fabric. This applies to the interior and exterior of the building and includes a protection strategy for architectural features (including decorative linings and Fritz Stellar friezes). Demolition shall be undertaken in accordance with the approved method statement.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

#### Conservation and Repair of Artwork

3. Prior to the conservation and repair of the 'Commerce' artworks and the 'Articulation of Movement' sculpture, a method statement, specification and drawings shall be submitted for approval in writing by the Local Planning Authority. These shall include dismantling, conservation, cleaning and repair methods, the extent of replacement and interventions, re-fixing details and material samples of replacement sections. The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

#### Materials

4. Prior to the commencement of development, details and samples of all new external facing materials, including but not limited to, details of the glazed curtain walling and roof coverings, shall be submitted to and approved in writing by the Local Planning Authority. No materials other than those approved in accordance with this condition shall be used.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

#### New External Door and Window Openings

5. Prior to the insertion of new external door and window openings and the adaptation of existing openings within the listed building, a method statement, specifications and drawings of new doors and windows shall be submitted to and approved in writing by the Local Planning Authority. These shall include design details of the openings, materials, finish and colour. The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

#### Repointing

6. No re-pointing of the external masonry shall be carried out until mortar mixes together with their sand/aggregate specification have been submitted to and approved in writing by the Local Planning Authority. Joints shall be raked out manually and repointing shall be formed flush within the confines of the joint and tamped with a stiff churn brush. A sample panel of pointing shall be prepared on site and approved in writing by the Local Planning Authority before re-pointing commences. The works shall be carried out in accordance with the approved sample panel thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

#### Condition 6 Footnote:

Weatherstruck, strap or ribbon pointing is not permitted.

#### Stone Cleaning

7. No stone cleaning shall take place until full details of the specification of cleaning methods, has first been submitted to and approved in writing by the Local Planning Authority. A sample panel of cleaning shall be prepared on site and approved in writing by the Local Planning Authority before stone cleaning commences. Thereafter any stone cleaning undertaken shall be in accordance with the agreed methods.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

## Roof Level Access Systems

8. Prior to the installation of the roof level access systems, further details of the proposed system shall be submitted to and approved in writing by the Local Planning Authority. These shall include the design of the system and fixing methods into the existing fabric. The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

## Clerestory Windows

9. Prior to the replacement of the clerestory windows, a specification of the new windows and 1:10 drawings showing fixing details into the building fabric shall be submitted to and approved in writing by the Local Planning Authority. These shall include design details of the openings, and materials, finish and colour. The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

## External Fixtures and Fittings

10. Prior to the installation of external lighting, CCTV cameras and external equipment fixed to the building, details shall be submitted for approval in writing by the Local Planning Authority. These shall include design and specification, colour, locations and fixing methods. Fixings shall be into mortar joints and not into the stonework. All existing modern redundant equipment replaced by the new equipment shall be removed carefully and the surfaces made good. The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

## Replacement, Repair and Redecorating of External Staircase and Balustrade

11. Prior to any works of replacement, repair and redecorating of the external staircase and balustrade leading through Panel 10 on the east elevation, details shall be submitted for approval in writing by the Local Planning Authority. These shall include the details of the repair and design and specification or any replacement, the colour and finish. The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to

accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

#### Mechanical and Electrical Works

12. Prior to the installation of any exposed, or visible mechanical and electrical works from within, or externally attached, to the listed building, details shall be submitted to and approved in writing by the Local Planning Authority. These shall include a mechanical services strategy (including vents, pipes, fire suppression system), and electrical services strategy (power, data, LV, lighting supply), showing product specifications, distribution locations and 1:10 typical details of penetrations through existing fabric, colour and finish, along with the siting, size, detailing and screening of any internal and external plant units. All installations shall be carefully routed and positioned to avoid damage to architectural detailing including ceiling, wall and floor finishes. The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

#### Thermal Enhancement Measures

13. Prior to the commencement of thermal enhancement measures, a method statement, proposed locations, 1:5 sections and a specification shall be submitted for approval in writing by the Local Planning Authority. The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

#### Blinds and Daylight Control Measures

14. Prior to the installation of blinds or other daylight control to rooms identified for use by WYAS, details and 1:10 typical details of fixing methods shall be submitted for approval in writing by the Local Planning Authority. The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

#### Flooring

15. Prior to the installation of the terrazzo food hall floor surface, the design and specification and a sample panel shall be submitted for approval in writing by the Local Planning Authority. The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

## Stalls

16. Prior to the installation of the food stalls at the southern end of the hall, details of their construction and finish, including how they interact with the historic fabric, height, unit design, colour and signage provision, shall be submitted for approval in writing by the Local Planning Authority. The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

17. Prior to the commencement of development, details at a scale of 1:10 and accompanying specification shall be provided in respect of retained market stalls (as identified within the Heritage Impact Assessment, Section 3, 3.3.2, page 45). The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

18. Prior to the commencement of development, details of the mezzanine and staircase within the library shall be submitted for approval in writing by the Local Planning Authority. Details shall include mezzanine edge detailing and feature guarding, stair design, material samples, finishes and colour. The works shall be carried out in accordance with the approved details thereafter.

**Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.

19. Prior to the commencement of development details of the internal partition wall and glazing between the library and food hall shall be submitted for approval, including detailing and fixings at the junction of the columns and roof structure, material samples, finishes and colour. The works shall be carried out in accordance with the approved details thereafter. **Reason:** To ensure the satisfactory appearance of the development on completion to retain the significance of the designated heritage asset and to accord with Policy LP35 of the Kirklees Local Plan, as well as Chapter 16 of the National Planning Policy Framework.
