

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)
Large windows have been used to allow natural light
Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)
n/a
Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)
high pressure and low water taps will be used
Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)
n/a
Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)
diliverys will be done in bulk waste collection will also be done in bulk

Climate Change Statement for Planning Applications**Part 1: Applicant details**

Name of applicant/agent	Mannan Iqbal
Site Address	103 Dryclough Rd Huddersfield HD4 5JB, UK
Description of Development	Rear double extension

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
Pir lights will be used within the hallway
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
local merchants will be consulted
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)
