<p>The workshop staff already make too much noise with machinery, noise of workers going to and from the workshop, cause issues with parking on an already small street. Having the proposed change of usage will cause more issues for on street parking and for traffic to pass through, due to the increase in vehicles potentially going to and from the new proposed area. Also there will be an increase in the on street sound from people entering/exiting the new proposed business. Further the indoor cricket will increase the sound on our residential area. The new business, increased noise and increased traffic/competing for parking in a residential area will impact on Radcliffe Road and will impact on the sale pricing of local housing.</p>
