<p>This is the second application in a few years to build a dwelling on this narrow strip of land at the back of our house. It is sandwiched between our house and the house on Bichroyd Close. The previous planning that was refused was for a single level with rooms built into the roof. The current dwelling is over two floors and will negatively impact on the light coming into our house. Furthermore we will lose the privacy we have as some of the windows overlook our house and back garden. This is especially so as there is little distance between the houses.</p> <p>The construction of the dwelling on such a small strip of land is also not in keeping with the existing houses in the area which will damage the aesthetics of the area.</p>
