What are the plans for parking, as there is no vehicle access to the building. The lane leading up is not suitable for cars. 7 flats would require a minimum of 7 spaces. So where are they going to park. This will have a huge impact around our property and the neighbours. There is nothing clearly marked on any plans regarding this or the vehicle route to the site. Also there will be a huge impact on our property regarding the construction process eg construction traffic and noise. There are also bats nesting in this building as they are seen on an evening.
