

**Consultation Response from KC,
Trees**

2024/90548 Former Riverside Works, Honley, Holmfirth, HD9 6PW

Erection of veterinary surgery (Use Class E) and associated works including the formation car parking and landscaping

Date Responded: 24/10/2024

Responding Officer: JD

Responding Ref: 10/14

There is woodland TPO 10/14/W1 protecting all trees to the North/east of the site.

The submitted AIA shows there are only 3 trees to be removed to facilitate the development and all other removals are for arboricultural reasons. I am happy that the removal of these trees is for justifiable reasons and the trees removed to facilitate the development can be sufficiently mitigated by the new planting proposed.

The AMS sufficiently details the measures that will be taken to protect the trees during construction. It also details the hand dig techniques that will be necessary within the RPA's of W15 to facilitate the construction of the new car park. There is also detail of the geo tex system that will be implemented within these RPAs also.

On the whole there is no objection to the proposals providing all details in the arboricultural method statement are adhered to.
