<p>The original application 2022/62/92581/W showed the placement of the bins by the Binham Rd entrance but looking at this new discharge application 2024/44/90602/W it shows them to the front of the building on the right hand side immediately through the gateway ie right in front of our house. How will the bin collection wagon obtain entrance through the narrow gateway/between the gateposts or will it be parking up in front of our house on a weekly basis? This change has not been highlighted in the new discharge application and the original plan has been 'superceded' in the original application meaning we have only just managed to spot this change. Surely this is not allowed without consultation with any adversely affected parties and we would certainly like to object.</p>
