<p>As you can see we live opposite to the proposed bungalow which we do not object to. However we are concerned regarding parking and access as the proposal is taking away an existing parking place which is used for both access in/out of our drive and also as visitors parking which is a regular thing as we have family living away and we have friends staying on a regular basis. The proposed parking spaces appear to restrict accessibility for both our cars. I would also ask if the current turning area will still be available to all vehicles including delivery/couriers vehicles. Please clarify and respond accordingly.</p>
