Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
I would like to raise an objection regarding some of the facts contained within the application and the application itself. To implement this construction, various trees and bushes will have to be removed from the area which goes against what is stated by the applicant. Those bushes and trees are contained within the applicants property and help reduce the water saturation of the land. Also a pond containing wildlife will have to be removed to implement the structure which is neither mentioned in the drawings or the application itself. Furthermore, the materials stated to be used are not in keeping with the property or those surrounding it (red glazed brick structures). Moreover, the extension proposed will reduce the natural light (sunlight and daylight), invade the privacy of the surrounding properties and affect saleability of the neighbouring properties.
