Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
None beyond what is required.
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
On site materials e.g. roof tiles and facing brickwork will be used as far as possible. Materials will be sourced locally as far as is possible.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

None applicable for this development.

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

None beyond what is required.

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

Considering the site location and its high placement in the geography of the area no measures will be required.

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

None.

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

None.

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

As required, if required.
