

Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	
Site Address	
Description of Development	

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

The building exists and any updating will take into account low energy carbon sources.

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

The building exists and any updating will take into account the energy efficiency of the building

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

The building exists and any updating will take into account the existing flood risk zone

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

The building exists and any updating will take into account of water usage, the new use will be reduced needs

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

The building exists and any updating will take into account bio-diversity. The site is distant from such features.

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

The building exists and any updating will take into account any air pollution and use consultant if necessary
