

Ref: 2024/90868

61 Purlwell Avenue

Batley

WF17 7PB

To Whom It May Concern,

I am writing in relation to the construction of the outhouse at 53 Purlwell Avenue. I am a resident on the street and have lived here since last

They have been really careful with the building to make sure we are not disturbed by tradesmen and builders during unsocial hours and have kept the area clean and accessible us all. The outhouse that has been made does not affect entrance to the park or the street behind and I have no objections to the way it has been constructed. From my back garden, I can see the outhouse, but it has not resulted in any loss of privacy of my house. My view is not obstructed by the outhouse,

nor have I lost any view ~~is~~ greenery or anything else. I think the construction of the outhouse could be a selling point for residents on the street for future buyers if they consider the what you can do with the land and the value it could add to a property in the future.
