Subject: Objection to Planning Application Number 2024/62/91003/E

I write regarding the Planning Application Number 2024/62/91003/E, Last Updated 17th April 2024, Applicant G Gill, Location 3 The Old School, Stock Bank Road, Mirfield, WF14 9QD

With reference to the above-mentioned Planning Application, erection of conservatory to the front of building, I would like to make the following comments and observations:-

1. The old Nab School is an historic building whose architectural integrity has remained the same since the school was founded in the 19th century and therefore is an important landmark charting the history of education in Mirfield.
2. An extension of this type I feel would not be sympathetic to the age, material and architecture design of the original building
3. This planned structure would severely obscure the current view
5. I have recently visited a local Estate Agent to enquire what the effect would be on the neighbouring properties if the middle dwelling should erect a structure of this kind. They were of the view that this type of erection would have a negative impact and devalue adjacent properties.

I implore you to look at the objections to this planned erection and take them really seriously as they will have a serious impact on people's lives.

With Kind Regards
