Subject: Planning Application Number 2024/62/91003/E

Planning Application Number 2024/62/91003/E, Last Updated 17th April 2024, Applicant G Gill,
Location 3 The Old School, Stock Bank Road, Mirfield, WF14 9QD

With reference to the above-mentioned Planning Application, erection of conservatory to front of building, and as the next door resident occupying number 4 The Old School, I would like to make the following comments:-

1. The old Nab School is an historic building whose architectural integrity has remained in tact. This aesthetic would be lost with the erection of a conservatory to the front.
2. The light coming into my front living room would be impeded by this planned building.
3. A glass box along my front boundary would affect the privacy I currently enjoy.
4. As an elderly gentleman, I spend a good portion of my day enjoying the view from my front window which looks out onto the fields beyond. This view would be impeded by the planned conservatory as the dimensions of this structure would cut straight across the sight line.
5. I was the first person to purchase a dwelling in the Old School following the sympathetic conversion of this heritage building by John Oats the builder. It states in my deeds that nothing can be done to alter the front aesthetic of the building.

I hope these comments will help you with your decision.

Kind Regards
