<p>Continued development around Honley is hugely affecting the underlying infrastructure especially schools, healthcare services and the road network. All these areas are under huge strain and increasing the number of housing compounds all these issues. There are no extra introductory and primary schools to take on new children to the area. There is only one Doctors surgery in Honley itself and one Pharmacy. The roads are crumbling and narrow all around the village and especially around Smithy Place. There are not enough adequate footpaths and this e that are their are in as much disrepair as the roads they run alongside.</p> <p>This development I believe was not in the original plans and certainly should not add to the burden.</p>
