This huge extention and development that has been built into the middle of the garden is intruding onto our territory removing privacy to enjoy our home.The very large rear window at the bottom and oversized bedroom window in the back garden is over looking into our property and my family /children feel watched and do not want to play outside now due to lack of privacy since the huge development has gone half way into the garden and is close to our property.windows over looking other peoples property should be removed as we are entitled to have privacy in our home.This development has taken over and our family do not support no further ammendmends or developments .Also the property should not be aloud to have 3 doors as a normal house only has 2 doors.3 doors is further more removing ones privacy when in close proximity to another property so one door should be removed at the side as should only have one door at front and one at the back.No window or door should be overlooking onto another property as this is intruding into other peoples privacy stopping us enjoying our own home and should be removed.
