**Subject:** PLANNING APPLICATION NO. 2024/91089

**Categories:**

Dear Sirs,

We have received a letter re the above planning application and wish to formally object to these plans.

Our objections are as follows:

- More green belt taken from the area, which is already congested with building sites around the Fixby areas
- The infrastructure will not be able to accommodate the cars on the roads - already there is great congestion without further buildings in the area
- There are not enough facilities, ie Doctors, Schools, etc. to accommodate the extra influx of families which will further exacerbate the shortages already in place
- The roads in the area are already full of potholes and further cars will only create further issues
- We are worried that there will be major road incidents in an already congested situation during the early rush hour. We have seen many near misses already.

What has happened to the Kirklees objectives of having and protecting green belt ? It appears this does not apply to the Ashbrow Wards.

We urge you to consider our objections very seriously as the quality of life in the Fixby area will be seriously affected by the proposed plans.

Thank you for your attention in this matter.

We would appreciate your feed-back to our objections above.

6 Dorchester Road  
Fixby
