### Disclaimer Information

This plan shows those pipes owned by the Network in their roles as Licensed Gas Engineer. Pipes otherwise privately owned, may be purchased or otherwise obtained from the relevant owners. The accuracy thereof cannot be guaranteed. Pipes are not shown but their presence shall be accepted by Northern Gas Networks or its contractors for any error or omission. This plan is used to verify and establish the actual location of any mechanical plant is used. This plan is to be used by all persons (either direct labour or otherwise) to ensure that the information included on this plan shows the correct location of issue.

This plan is reproduced or based on the information provided by the controller of HM Stationary Office. Copyright © 2010

by Northern Gas Networks or the relevant Gas Transporters (GT). Gas pipes owned and installed by GTs are not shown on this map. The information shown on this plan is for information only. It is not intended. Service pipes, valves, syphons and other fittings are not shown. The location of the relevant Gas Distribution Network (GDN) is shown. Safe digging practices, in accordance with the relevant position of mains, pipes, services and other fittings, are the responsibility of the relevant contractor. It is your responsibility to ensure that the relevant contractor (or contractors) working for you on or near the relevant GDN should not be referred to beyond a period of 12 months.

### Disclaimer Information

This plan shows those pipes owned by Northern Gas Networks or the relevant Gas Distribution Network in their roles as Licensed Gas Transporters (GT). Gas pipes owned by other GTs, or otherwise privately owned, may be present in this area. Information with regard to such pipes should be obtained from the relevant owners. The information shown on this plan is given without warranty, the accuracy thereof cannot be guaranteed. Service pipes, valves, synphons, stub connections, etc. are not shown but their presence should be anticipated. No liability of any kind whatsoever is accepted by Northern Gas Networks, the relevant Gas Distribution Network, or their agents, servants or contractors for any error or omission. Safe digging practices, in accordance with HS(G)47, must be used to verify and establish the actual position of mains, pipes, services and other apparatus on site before any mechanical plant is used. It is your responsibility to ensure that this information is provided to all persons (either direct labour or contractors) working for you on or near gas apparatus. The information included on this plan should not be referred to beyond a period of 28 days from the date of issue.
