My understanding from talking to people in the village is that the main sewer runs downhill along Marsh lane, then down Cliffe Road, past my property and then on towards the centre of the village. I get occasional smells from drains and others who have had more serious problems report that Yorkshire Water have advised Marsh Lane sewer is at capacity and nothing can be done. Can I ask the planners to publish a sewerage capacity assessment here which deals with adding 7 large properties onto a system at capacity. Thanks.
