<p>The building of fifty new houses will severely impact the village two and a half storey houses are not in keeping with the rest of the houses in the village neither is the proposed use of brick built house</p> <p>The increase of the amount of cars using the small single pass roads is an accident waiting to happen</p> <p>In the application the developers say their is a proposed play area to be built on site not a definite one who will maintain and upkeep the play area</p> <p>As for the plan to allow surface water to be discharged into stony wood beck the river is flooded on regular occasions after severe downpour</p> <p>Surly increased housing is going to add to the problem</p> <p>Will anything be done about the light pollution from the proposed new development which will impact on the wildlife as the houses are in close proximity to natural woodland</p>
