<p>I often visit family in Stocksmoor and was horrified to see these proposals for such a large housing estate in such a lovely tranquil village. The field has an abundance of wildlife, due to the neighbouring woodland and I enjoy seeing the hare, deer, red kites and owls there. I cannot see that an environmental impact assessment has been carried out here and it seem these plans have been rushed through without proper consideration for the environment. I also feel that the narrow roads that serve the village cannot handle the excess of cars that this new estate would undoubtedly bring. I cannot see the sense in building family homes in a village that has no schools or GP and has very poor public transport links, this to me is not sustainable, I believe there are much better sites for such a development.</p>
