<p>I believe there are significant highways and road safety issues arising from this application. Shepley Road is a narrow rural road with no pavement towards Shepley beyond the point of the proposed access to the application site. Walkers use the road to access the nearby woodland. The site access itself is right on a blind bend. The whole concept is in my view very dangerous.</p> <p>That is my main concern. There are others, including the impact of this huge development on a rural village and its occupants, the literally hundreds of additional daily vehicle movements which will be inevitable for the purposes of shopping in either Shepley or Kirkburton, there being no shops in Stocksmoor, the transporting of children to school in Shepley, Thurstonland, Kirkburton or Shelley. All roads serving Stocksmoor (Shepley Rd, Dam Hill, Thunderbridge Rd) are quite unsuitable for significant additional traffic.</p>
