<p>This proposed development would truly be a "cuckoo in the nest" for Stocksmoor. Its scale, location and shoddy design are totally inappropriate for this village.</p> <p>It would have a detrimental impact on the natural environment and become a blot on the landscape.</p> <p>There would be major disruption and danger during the construction phase due to the many hundreds of traffic movements necessary for building materials and the workforce.</p> <p>Subsequently the traffic increase caused by the new residents and their visitors would substantially increase the dangers on the local roads. In particular the site entrance is in a very dangerous location.</p> <p>Shepley Road is already dangerous for motorists, cyclists and pedestrians and this will be further exacerbated by the increase in traffic (which is substantially underestimated in the Planning Application!).</p> <p>Members of the Planning Committee must walk this route to gain first hand experience of the potential risks.</p> <p>I sincerely hope that this ill conceived application is rejected.</p>
