<p>I wish to object to this proposed development which will impact significantly on the rural location of Stocksmoor and Shepley . The impact on the surrounding environment will be substantial , negatively impacting the wildlife and biodiversity of the surrounding woodland. The road infrastructure is poor with the road to Shepley , being for the most part single track. As it is , the road infrastructure is poor and the volume of traffic high . This is a route used regularly by walkers and cyclists and there are considerable implications for road and highway safety. As things stand it is impossible to get a GP appointment and there is no capacity to service such a development should it proceed. Let's be honest these are not houses to support the housing targets and provide for first time buyers or those in need , they are houses that will be sold at prices beyond the ability of most locals to buy .</p>
