<p>this is 50 new homes on the edge of a small village of just 170 homes existing which is an increase of 30% and completely out of proportion. There are no additional amenities, meaning schools, shops, doctors and dentists in Shepley will be over run. The proposed houses show one access only onto a single track road on a dangerous bend with no additional footpath or street lighting on the road into Shepley which will become an access road for schools, doctors etc. There will be significant light pollution and elimination of the wildlife in this area, which is close to the woods which host all manor of birds, owls, badgers and even deer. The light and noise pollution from this development will displace all these animals and detract from one of the main assets of living in a village like stocksmoor/shepley - which is peace and quiet and nature.</p>
