<p>I have huge concerns regarding the 30% increase of properties in our beautiful tranquil village, the impact would devastate the rural location which is frequented by wildlife including deer, owls, woodpeckers to name a few and the amount of cars and traffic this will cause.</p> <p>The current road structure wont be able to cope with the enormous demands of construction vehicles coming in and out of our village.</p> <p>The increase in vehicles in the future will add to the current hazardous conditions in our village, cars using Stones Wood as a cut through, cars speeding through our village, its just another accident waiting to happen.</p> <p>The access to the proposed development site is unsafe, on a corner causing massive road safety concerns for drivers and pedestrians.</p> <p>Unfortunately our rail services are not reliable and therefore it makes commuting by train impossible to reduce the amount of vehicled already travelling in and out of our beautiful village.</p> <p>Our local services, the GPs and Dentists will not beable to cope with the increase of people, this is a current issue already.</p> <p>I feel this proposal of upto 50 houses it not viable in a small village and therr are just too many objections at this time for this proposal to be accepted.</p>
