<p>This would be 50 new homes on the edge of a small village of just 170 homes existing. An increase of 30% and completely out of proportion. The proposed houses show one access only onto a single track road on a dangerous bend; furthermore the proposed drainage for these homes will severely impact an already overstretched system. The natural waterways and ecological balance from Stone Wood right down to Thunder Bridge will reach breaking point. There are no schools or shops in the village so the traffic on the single track Stones Wood/Shepley Road would greatly increase the likelihood of accidents. It's far too many houses in the wrong place.</p>
