<p>The idea of up to 50 houses on this site is obscured!</p> <p>The access point is on a tight bend leading from a single lane road through the woods. This road is blocked at the best of times as soon as 2 vehicles meet, adding a potential 50+ vehicles to that on a daily basis is frankly dangerous and will cause horrific blockages and hold ups, and inevitably accidents and injuries.</p> <p>The local village has no amenities so people will be forced along this single road to the neighbouring village shops causing a significant increase to traffic in a residential area. increasing the size of the village by a reported 30% in just one site is just bonkers and not in keeping with the village way of life.</p> <p>This application shouldn't ever be approved.</p>
