<p>I often visit Stocksmoor to walk in the beautiful Stones Wood and the surrounding countryside. I was disappointed to see this planning application for the field that borders the wood, as I believe this to be an important wildlife habitat for hares, deer, pheasants and red kites. The road that leads down to Stones Wood, past the proposed entrance to the site, is narrow and has no pavement, I often have to jump into the verge to avoid speeding cars, as this road is national speed limit and not suitable for any increase in traffic.</p> <p>Having viewed the proposals for the site, I find the houses to be ugly and the height of some of them will tower over the bungalows on Station Road.</p> <p>I feel that a development of such a size will have a real negative impact on those living in the village and the many people who visit the village to enjoy the green peaceful space.</p>
