<p>having lived in Stocksmoor most of my life I feel that this many houses would cause an increased risk to people safety at the cross roads especially and on the roads into the estate. We have had many accidents happen on the cross roads which have left family's without loved ones and an increase in traffic will only add to this danger. I feel the village tends to have an elderly population and more vehicles could cause a risk to them as they tend to have to walk in the roads due to the state of the pavements and also there are no pavements going down into stones woods. Maybe a new school and GP's would be better suited to this site for all the people in new housing in the surrounding areas that are already built.</p>
