| <p>I'm concerned that the area surrounding the proposed site is not viable in hosting these extra residents &amp; the initial construction work. The traffic structure is already compromised with the villages surrounding having one track roads, ill- supported give ways/passing places and lack of supervised management. The locality is already surpassing its capacity with shops, education, council services and the health system massively oversubscribed.</p> <p>The area is home to multiple wildlife, which is already compromised and with extra footfall- and the removal of more homeland for the creatures- will eradicate wildlife in that area.</p> <p>The impact from having new properties will mean a sleepy village will lose its character and there is higher chance of noise pollution/disturbances, litter and vandalism, including flytipping.</p> <p>The safety aspect is highly concerning as the entrance is at the top of a single track road that already causes delays and backlog. The instance for accident is greatly heightened posing further risks to pedestrians etc.</p> |    |
