<p>13th June 2024</p> <p>I would like to strongly object to the planning application on Shepley Road/Stonewood Lane.</p> <p>Dangerous Access</p> <p>The access to this proposed site is on a blind bend, on a narrow, single track country lane, totally unsuitable for an increase in traffic volume. If anything, traffic needs to be reduced along this lane to prevent regular accidents. A proposal of 50 houses is ridiculous, as the increased volume of traffic could be around 100 more cars accessing this site and the country lanes surrounding it. I travel to Shepley along Stonewood Lane (turning into Shepley Road) on a regular basis, there are limited passing places, and we regularly have to reverse and make tricky manoeuvres, I have had a number of near misses and witnessed very dangerous driving.</p> <p>If houses were built on this site, the residents would inevitably use Stonewood Lane to access facilities in Shepley and come through the village to access the main road. Stonewood Lane is not gritted and during winter conditions, it is hazardous and at times impassable.</p> <p>Protection of Countryside and rural communities</p> <p>The fields and woodland around this area are beautiful and the infilling of houses in this site would be unsightly and damage local wildlife, especially the protected woodland that runs along this site, and towards Shepley village. The villages of Stocksmoor and Shepley are small rural communities, surrounded by picturesque countryside and wildlife, this development would have a detrimental effect on the close knit communities and residents who have chosen to live in a quiet, rural setting. I do not disagree that building new houses is necessary but there are many more brownfield sites that would be much more suitable than this location in beautiful countryside.</p>
