<p>Looking at the plan the access appears to be on a sharp bend where Stoneswood Bottoms becomes Shepley Road. You will be aware how narrow Stoneswood Bottoms is, being single track in places, therefore the inevitable increase in traffic going towards Shepley will make this road very dangerous and could lead to confrontations as to who should reverse to allow progress. There are already numerous speed bumps in the area to slow traffic so there is obviously an existing problem which will be exacerbated by this development.</p>
