Dear Ellie Thornhill,

I write to object about the above proposal to build 50 houses next to the beautiful ancient woods of Stocksmoor, Sheply and Fullstone and by the little road that weaves through the woods:

1. There is too much traffic in the village especially since the houses at Stocksmead have also been added. This will make our small village too big and not how it was ever meant to be.
2. Please can the council update our recreational ground rather than put another one, especially as it will damage our environment. The woods are very important to me and I have spent much time with my family playing in the fields and watching the wildlife. We go pond dipping, in fact I know that Cliffe house where I have been use the woods for activities for children. This will make this left safe.
3. I know the water in the Beck gets dirty and I think all the added work that comes with building and people will make this a lot worse.
4. I cycle, run and walk but I am not aloud on the side roads as they are too dangerous. Even more people will make my village more unsafe.
5. If my mum did not take me anywhere by car I could not get out of the village when it is dark as the buses are rare and stop early and the trains are usually cancelled, late and do not work with where I need to be.
6. If you live in Stocksmoor you need a car, the new houses will bring more traffic.
7. There are no shops in Stocksmoor.
8. We are told about climate change at school, I want to protect our special countryside, yet it seems that other people want to destroy it. I am young and I want to try and protect the planet. This development will make matters worse. There are much better places to put an estate that looks like nothing else in Stocksmoor.
9. I love Stocksmoor and am sad that others want to destroy it.
